## PROJECTS

### • E-commerce Platform

Built a responsive e-commerce website where users can browse products, filter by categories, and manage their accounts. The admin dashboard allows for product creation, category management, and order tracking.

**Technologies Used:** React.js, Node.js, Express, MongoDB, Context API, Tailwind CSS

**GitHub:** [Link](#) **Live Demo:** [Link](#)

### • Employee Management System

Developed a system for managing employee records with features for creating, updating, and deleting entries. Includes pagination for efficient data navigation.

**Technologies Used:** React.js, Node.js, Express, MongoDB, Cloudinary

**GitHub:** [Link](#) **Live Demo:** [Link](#)

### • Personal Portfolio

Created a personal portfolio to showcase skills, projects, and contact information.

**Technologies Used:** HTML, CSS, JavaScript, Express JS

**GitHub:** [Link](#) **Live Demo:** [Link](#)

### • Blog Application

Created a blog platform using React.js where users can sign up, sign in, and manage their accounts. Authenticated users can write, edit, and delete their own blog posts.

**Technologies Used:** HTML, CSS, JavaScript, Express JS

**GitHub:** [Link](#) **Live Demo:** [Link](#)
