SUMMARY

Junior MERN Stack Developer and recent Computer Science graduate with hands-on experience building full-stack web applications using React, Next.js, Node.js, Express, MongoDB, and Python-based services. Experienced in developing document processing tools, REST APIs, authentication systems, and responsive user interfaces. Passionate about clean architecture, scalable solutions, and real-world problem solving.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Feb 2022 - Jan 2026

Computer Science, Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Systems, Software Engineering, Web Development

Sindh Madressatul Islam University, Karachi

PROFESSIONAL EXPERIENCES

Web Development Intern, Youth Evolution Foundation (YEF)

Jun 2025 - Aug 2025

- Worked on front-end development using React and Next.js to build responsive user interfaces.
- Assisted in back-end development tasks and API integration.
- Followed best practices of the software development life cycle (SDLC) during feature development.
- Maintained code quality through clean, reusable components and proper structure.
- Demonstrated strong problem-solving and time management skills while meeting project deadlines.

Technical Skills

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB (Mongoose)

Tools: Git & GitHub, Netlify, Postman

Other: TypeScript (Basics), AI API Integration (Google Gemini)

RESEARCH & PROJECTS

➤ DocuTool – All-in-One Document Processing Platform

Tech Stack: React.js, Python, Tailwind CSS, React Router DOM, Lucide React

- Built a unified document utility platform providing multiple PDF and document-related tools in a single interface
- Implemented PDF to Word and Word to PDF conversion features
- Developed PDF Encryption functionality to secure documents with passwords
- Designed scalable tool architecture allowing easy addition of future features
- Created responsive and modern UI using Tailwind CSS and Lucide icons
- Structured frontend routing using React Router DOM
- **Implemented Features:**
 - PDF to Word Converter
 - Word to PDF Converter
 - PDF Encryptor
- **Planned Features (Currently Under Development):**
 - PDF Merge, Split, Compress, Rotate
 - PDF Watermark
 - PDF/Image & Excel Converters
 - Resume Builder and Resume Checker

➤ SabzLink – MERN Stack Web Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Developed full-stack MERN application with authentication and role-based access
- Built admin dashboard for managing products and orders
- Implemented RESTful APIs and secure JWT authentication
- Focused on scalability and clean code practices

- **E-Commerce Platform (MERN)**
 - Developed responsive e-commerce application with product browsing and filtering
 - Implemented CRUD operations and admin order management
 - Integrated MongoDB for data storage
- **Employee Management System**
 - Built CRUD-based employee management system with pagination
 - Designed responsive UI using React and Tailwind CSS
 - Applied SDLC best practices and clean component structure
- **Personal Portfolio Website**

Tech Stack: React.js, Tailwind CSS

 - Designed and developed a personal portfolio to showcase projects, skills, and contact information
 - Implemented responsive and interactive UI using modern React features
 - Focused on clean design, smooth navigation, and user experience
 - Optimized for performance and maintainable component structure
 - **Live Demo:** <https://abdulbasitportfolio.netlify.app/>

CERTIFICATIONS

- **Python Course**, NAVTTC IBA – Dec 2025
- **Python for Data Science and AI**, Coursera – Apr 2025
- **Full-Stack Web Development (MERN)**, Al Khidmat Bano Qabil – Jul 2023
